SCI	6011	Biology Lab H	5.00	YR
SCI	6061	AP Chemistry Lab	5.00	YR

The above list of courses includes those classes currently on your schedule for September 2017. As soon as possible please check this list of courses carefully and look for errors. *Grade 9 and 10 students please note that each study listed represents one block on one day. For example, if you have "Study Hall Fall" listed twice you have two study blocks per week in the first semester.*

NEW THIS YEAR: Today through July 31st: Report Errors on your schedule using this Google form: <http://tinyurl.com/NNHSCourseCorrections17-18>

- Note that we can only address simple errors via the form. When at all possible we will correct these errors this summer so that you do not need to come to arena. Errors we can address are listed on the form.

Errors include:

- Missing a course you requested in March and not receiving an alternate for it.
- Missing a required course (for example English or PE)
- Being enrolled in two sections of the same course.
- Needing to drop a course as a result of summer school.
- Having unbalanced semesters (many more free/study blocks in one semester than the other)
- Being under-enrolled.
 - You may be under-enrolled if you have fewer than 28 credits.
 - As stated in opportunities, students may not take fewer than 24 blocks without permission from their counselor. Juniors and seniors who are committed to extra curricular activities may enroll in a minimum of 22, not 24, blocks. These activities must be supervised by NNHS faculty/staff, be connected to the curriculum, and have a definite product or concluding performance. Examples of such activities include school sports, school publications, theater (directing, acting or tech. crew), science/math teams, Model UN, Speech Team/Mock Trial, school supervised community service, and school supervised tutoring and educational clubs.
 - For more information, and/or permission to take 22 blocks, students should see their school counselor.
 - Students who are under enrolled will not be able to participate in sports or other NNHS extra curricular activities.

Errors do NOT include:

- being enrolled in your alternate course
- being enrolled in a different PE from your request
- requesting a different curriculum level, or
- changing your mind about what course you would like to take.
